## EDUCATION

---

*Master of Science, Applied Computer Science (5.0 grade in scale from 1.0 to 5.0)* graduated  
Nicolaus Copernicus University, Torun, Poland October  
**Database and Internet technologies for e-Commerce (MySQL and PHP)** 2011

*Bachelor of Science, Applied Computer Science (5.0 grade in scale from 1.0 to 5.0)* graduated  
Nicolaus Copernicus University, Torun, Poland February  
**Set-up for electroluminescence measurements** 2010

## WORK HISTORY

---

### Software Developer August 2016 – April 2017

**Employer:** Neotek Ltd  
**Technologies:** XSL, HTML/CSS/jQuery, Service Workers, progressive web applications, MSSQL  
**Ending cause:** work environment

In my first job in New Zealand I was using solution developed by the company. I was fixing its issues and I created many new features and enhancements including chat functionality as a prove of concept and sending orders to shipping company. Moreover, we created two progressive web applications using Service Workers and jQMobile. Additionally, I was taking care of data flow during integration process between clients' DBs and websites.

### Unemployed January 2016 – August 2016

**Technologies:** PHP, HTML5, Java

After I ended my last job I was preparing myself to journey to New Zealand, passed IELTS exam (7/0), was learning Java and, recently, Symfony 3. I redesign **SPIE website to a responsive one**.

### IT Specialist October 2014– December 2015

**Employer:** Hostagroup Sp z o.o.  
**Technologies:** Windows Server 2012, Windows, PHP, MS SQL Server 2012, MS Office  
**Ending cause:** employer hired professional IT company

I administrated a Windows server with MS SQL Server databases, company's websites and was helping employees with IT issues giving them strong IT service, both software and hardware.

### Web application programmer October 2014– December 2015

**Employer:** Homak  
**Technologies:** PHP, HTML5, MySQL, JavaScript, jQuery  
**Ending cause:** finished the project

I created and developed a fully responsive CRM system with a built-in webmail system and an advance system of relations between modules of Clients, Activities, Mails and Sales; it is used for sales management purposes (**website**).

## Unemployed

January 2016 - ...

**Technologies:** self-education of HTML5 and JavaScript for mobile games

I moved to France for six months with my wife. I did not know French, therefore I could not find a job. I attended a French course, was reading books about creating mobile games and administrated **NCU SPIE & OSA Student Chapter's website**.

## Programmer

October 2012– February 2014

**Employer:** Foundation for Polish Science

**Technologies:** LabVIEW, Matlab, Silverlight

**Ending cause:** finished the project, moving to other country

I was developing new techniques for understanding phenomena in an eye and processed the data. Results of my work were presented during conference **Frontiers in Optics** in 2013 (**abstract**).

## Programmer

March 2013 – June 2013

**Employer:** The National Center for Research & Development

**Technologies:** C++/CLI, LabVIEW

**Ending cause:** finished the project

I created a new extension for saving data from measurements which later was used in other projects of the research group I worked with (**website**).

## Programmer

September 2012– March 2013

**Employer:** AM2M Sp. z o.o.

**Technologies:** LabVIEW, Silverlight

**Ending cause:** finished the project

I created a segmentation algorithm for images of contact lenses and calculation of properties of these objects using Silverlight and LabVIEW (**website**).

## Programmer & DB designer

February 2012– September 2012

**Employer:** ADOP Sp. z o.o.

**Technologies:** MySQL, MS Access, VBA, Silverlight

**Ending cause:** mainly because I got better job opportunity

I was developing big ERP, work- and document-flow as well as resource and energy management applications using mentioned technologies. Moreover, I was the person who together with my boss was implementing the system in collaborated companies (**website**).

## Web application programmer

February 2011– November 2011

**Employer:** FH MIM

**Technologies:** PHP, MySQL, xHTML, JavaScript

**Ending cause:** finished the project

In F.H. MIM (my parents' company), I learnt about resource management and how small company works. Knowledge was used in my **MSc degree thesis project** which the main purpose was to create **an administration panel for a warehouse management**.

## Business Process Support Department

May 2010– February 2011

**Employer:** Nestle

**Technologies:** MS Access, SQL, VBA, MS Excel, SAP

**Ending cause:** very low salary (~80EUR/month), started volunteering in a new place

My main duties were to administer a department's local DB and calculate reports. Apart from that, I created a script for automatic correction of contractor's data inside the DB as it was full of wrong or without any information (**website**).

## Programmer & DB designer

July 2009– September 2009

**Employer:** Inter-tel

**Technologies:** SQL, MS Access, MS Excel, VBA

**Ending cause:** end of internship

A 3-month internship. I created a script for automatic MS Access forms generation based on custom Excel documents using VBA (**website**).

March 2009– June 2009

## IT Specialist

**Employer:** Torsoft

**Technologies:** -----

**Ending cause:** end of internship

An internship during which I serviced equipment, applications and operating systems.

## COURSES AND WORKSHOPS

---

IELTS exam (7.0 / 9.0)	2016/02
MS SQL Server   Course	2011/02 – 2011/09
IBM, DB2   Workshop & Certificate	2011/02 – 2011/03
Windows Server 2008   Workshop & Certificate	2010/02 – 2010/09
CCNA Semester 1   Workshop & Certificate	2010/02 – 2010/09
Oracle DB   Workshop	2010/02 – 2010/09

## ALBILITIES

---

Creating (*scripts, applications, graphics, databases; more information in **my portfolio***).

Solving problems (*I'm a person who look at problems from different points of view and explore possible solutions*).

Planning, organizing and coordinating (*I'm a programmer and was an organizer of two international conferences (#1, #2) and former head of NCU Chapters (**link**)*).

Communication & presentation skills (*In years 2012-2014 I took part in many presentations including professional international conferences, **more information***)

Easily adapting, hardworking & never gives up (*I always adapt to new circumstances, solving new problems, learning new things and technologies. I always do my best*).

## RELEVANT SKILLS

---

<b>Knowledge of web technologies:</b> HTML, PHP, JavaScript, CSS	80%	5 years
<b>Designing and managing databases:</b> MySQL, T-SQL, MS Access	75%	3.5 years
<b>Creating web applications:</b> Back-end, SEO, Front-end	80%	~5 years
<b>Knowledge of productivity software:</b> OpenOffice, MS Office (Access, Excel, Word, PowerPoint, Visio), VBA	90%	4.5 years
<b>Creating and modifying graphics:</b> Photoshop, Illustrator, GIMP	60%	3 years
<b>Experience in other program. lang.:</b> C++/CLI, C#, Silverlight, VB, Java	40%	0.5 year each
Knowledge of <b>LabVIEW</b>	75%	2 years
Administrating <b>Windows Server</b>	60%	2 years
<b>Languages: English</b>	IELTS 7.0	>10 years
<b>Languages: French</b> (0.5 year lived in France)	"A1.5" spoken	2.5 years

More information about my relevant skills can be found on **my website (About me → Skills)**.

## OTHER ACTIVITIES

---

Organizer of two international conferences ( <b>link</b> , <b>OPTO Meeting, IONS-14</b> )	July 2013
Vice- (2012/2013) and president (2013/2014) of <b>NCU OSA Student Chapter</b>	2012-2014
Organizer and participant in many activities in the area of popularization of science and as a charity ( <b>link</b> )	2012-2015
Participant and presenter in 7 international conferences ( <b>link</b> )	2010-2013
Member of professional societies ( <b>SPIE, OSA</b> )	2012-2015
Amateur graphic designer ( <b>#1, #2</b> )	2012-...
More information about my relevant skills can be found on <b>my website (About me → Other activities)</b> .	

## INTERESTS

---

Amateur photography  
Traveling  
Computer games – puzzle, logic, adventure, action  
New technologies – PC hardware, accessories, science  
Trends
